Semester III

Non-Major: Animation Techniques - 365E

Multiple Choice Questions.

1. What license is Adobe Creative Suite distributed under?

- A. EULA.
- B. Proprietary software.
- C. Freeware.
- D. Open Source Software.

ANSWER: B

2. Photoshop is available in _____ separate versions.

- A. one
- B. two
- C. three
- D. four

ANSWER: B

3. Top of the photoshop window, _____ replaces the application bar in photoshop cs6.

- A. panel window
- B. status bar
- C. menu bar
- D. Property bar

ANSWER: C

4. Expand GPU

- A. Graph processing unit.
- B. Graph processed Unit.
- C. Graphics Processed Unit.
- D. Graphics Processing Unit.

ANSWER: D

5. _____ engine provides real-time result while working with memory intensive tools, such as liquify and puppet warp.

- A. Mercury Graphics
- B. Erodible Graphics
- C. Crop
- D. Content aware tool

ANSWER: A

6. Expand CPU.

- A. Center processing unit.
- B. Central processing unit.
- C. Centi processing unit.
- D. Centriod processing unit.

ANSWER: B

7. The _____ is located below the menu bar.

- A. option bar
- B. menu bar
- C. document window
- D. panels

ANSWER: A

8. The option bar is also called as _____.

- A. control panel
- B. menu bar
- C. document window
- D. panels

ANSWER: A

9. _____ are small adjustable windows that provide the access to common commands and options.

- A. Pen tool
- B. Option bar
- C. Menu bar
- D. Panels

ANSWER: D

10. The _____ displays various icons that represent various tools in photoshop.

- A. control panel
- B. option bar
- C. document window
- D. tools panel

ANSWER: D

11. _____ refers to the way the data is represented in an image, the compression techniques used and the Photoshop features supported by the formats.

- A. File Structure
- B. File Description
- C. File Format
- D. File Definition

ANSWER: C

12. File formats use _____ technique to reduce the file size of raster images.

- A. compression
- B. decompression
- C. uncompressed
- D. reduce

ANSWER: A

13. RLE stands for _____.

- A. Runtime Length Encoding.
- B. Run Long Encoding.
- C. Run Length Encoding.
- D. Rapid Length Encoding.

ANSWER: C

14. _____ preserves original image detail.

- A. Lossfull Technique
- B. Lossy Technique
- C. Losshalf Technique
- D. Lossless Technique

ANSWER: D

15. _____ technique removes some image details or color information and reduces file size.

- A. Lossfull
- B. Losshalf
- C. Lossy
- D. Lossless

ANSWER: C

16. _____ is the native photoshop file format and offers optimum options for all image-editing tasks in photoshop.

- A. Bitmap
- B. Tagged Image File Format
- C. Pixar
- D. Photoshop document

ANSWER: D

17. JPEG stands for _____.

- A. Joint Photographic Experts Group.
- B. Join Photo Experts Group.
- C. Join Picture Experts Group.
- D. Joint Picture Extension Group.

ANSWER: A

18. _____ is the cross-platform standard format for windows operating systems that is compatible and supported by the majority of graphics applications.

- A. Bitmap
- B. Tagged Image File Format
- C. Pixar
- D. PSD

ANSWER: A

19. _____ file format does not support alpha channels and clipping paths.

- A. Tagged Image File Format
- B. Pixar
- C. Encapsulated Postscript
- D. Portable Document Format

ANSWER: C

20. _____ is a raster image format developed by pixar and used in computer animation

production system.

- A. BMP
- B. PDF
- C. PSD
- D. PXR

ANSWER: D

21. _____ file format is commonly used for photographs and images.

- A. TIGG
- B. BMP
- C. JPEG
- D. PDF

ANSWER: C

22. The _____ tool is used to move selections, layers or guides from one location to another in the document

- A. Pen
- B. Move
- C. Eyedropper
- D. Content Aware

ANSWER: B

23. The _____ tool allows to select the foreground color or the background color

- A. Pen
- B. Move
- C. Eyedropper
- D. Content Aware

ANSWER: C

24. The _____ tool allows to recompose and blend image selections quickly without making precise selections.

- A. Pen
- B. Move
- C. Eyedropper
- D. Content Aware

ANSWER: D

25. The _____ tool allows Zoom closely into the image while fixing imperfections, performing detailed cleanups and drawing accurate selections.

- A. Pen
- B. Move
- C. Zoom
- D. Content Aware

ANSWER: C

26. The _____ tool is used to navigate from one part of the image to another.

- A. Hand
- B. Move
- C. Zoom
- D. Pen

ANSWER: A

27. The _____ are non-printable lines that help to accurately place design elements

- A. Guides
- B. Ruler
- C. Grid
- D. Navigator Panel

ANSWER: A

28. A _____ is an arrangement of the interface elements, such as panels, bar and windows, in the main photoshop cs6 window.

- A. Guides
- B. Window
- C. Workspace
- D. Grid

ANSWER: C

29. The _____ panels are single standalone panels that are not docked to a panel group.

- A. Floating
- B. Derived
- C. Sub
- D. Docked

ANSWER: A

30. The _____ are docked into the panel group by default.

- A. Panels
- B. Floating
- C. Derived
- D. Docked

ANSWER: A

31. In _____ group the auto collapsing feature of panels can be enabled.

- A. Interface
- B. Appearance
- C. Options
- D. Text

ANSWER: C

32. The _____ group allows to add the preview of an image to the file and the type case in the file extension option.

- A. File compatibility
- B. File Saving options
- C. Drive
- D. File

ANSWER: B

33. The _____ category allows to control the appearance of the cursor when using painting and other tools.

- A. Transparency
- B. Gamut
- C. Rulers
- D. Cursor

ANSWER: D

34. The _____ allows to select the unit of measurement for photoshop.
- A. Rulers
 - B. Units
 - C. Rulers & Units
 - D. Cursor

ANSWER: C

35. The _____ category allows to toggle smart quotes on or off, as well as enable other languages.
- A. 3D
 - B. Type
 - C. Plug-in
 - D. Slices

ANSWER: B

36. The _____ color always represents the majority of color in the painting.
- A. Dominant
 - B. Accent
 - C. both i and ii
 - D. Gradient

ANSWER: A

37. The _____ color represents the focal point of the painting or image.
- A. Dominant
 - B. Accent
 - C. both i and ii
 - D. Gradient

ANSWER: B

38. The _____ refers to the group of colors that visualize in the project.
- A. Color scheme
 - B. Color Wheel
 - C. Color
 - D. Brightness

ANSWER: A

39. _____ refers a tool that helps to select matching colors.
- A. Color Scheme
 - B. Color Wheel
 - C. Color
 - D. Brightness

ANSWER: B

40. RGB stands for _____.
- A. Red Green Brown
 - B. Red Green Black
 - C. Red Green Blue
 - D. Round Green Black

ANSWER: C

41. _____ represents colors in their purest form, measured in degrees
- A. Saturation
 - B. Brightness
 - C. Color
 - D. Hue

ANSWER: D

42. _____ describes the strength or intensity of a color
- A. Saturation
 - B. Brightness
 - C. Color
 - D. Hue

ANSWER: A

43. _____ controls the degree of lightness or darkness of a color.
- A. Saturation
 - B. Brightness
 - C. Color
 - D. Hue

ANSWER: B

44. The _____ is an online community where share sets of colors and themes.
- A. Saturation
 - B. Brightness
 - C. Hue
 - D. Kuler

ANSWER: D

45. Color mode stands for the _____, where the color of each pixel of an image is a combination of the primary colors for the model in different proportions.
- A. Color Model
 - B. Color Scheme
 - C. Color Wheel
 - D. Color Mode

ANSWER: A

46. In RGB Color mode, each pixel is assigned an intensity value that ranges between _____.
- A. 0 to 256.
 - B. -256 to 265.
 - C. 266 to 0.
 - D. 0 to 255.

ANSWER: D

47. In RGB color mode, Value of all the 3 colors are 255 means _____.
- A. Pure White
 - B. Pure Black
 - C. Pure Red
 - D. Pure Green

ANSWER: A

48. Scanners and digital cameras are called _____ input device.

- A. RGB
- B. CMYK
- C. Indexed Color
- D. Grayscale

ANSWER: A

49. In _____ color mode represents image using shades of black.

- A. Grayscale
- B. Indexed
- C. Bitmap
- D. Lab

ANSWER: A

50. In _____ color mode defines an image in 2 colors.

- A. Grayscale
- B. Lab
- C. Bitmap
- D. Duotone

ANSWER: D

51. Photoshop is an _____ editing software and uses pixels to represent an image

- A. Image
- B. line
- C. curve
- D. dashed lines

ANSWER: A

52. Making a selection with selection tools is a _____ step process.

- A. one
- B. two
- C. three
- D. four

ANSWER: B

53. The _____ selection tools help to select desired areas of an image in geometrical shapes.

- A. Marquee
- B. Lasso
- C. Quick Selection
- D. Pick

ANSWER: A

54. The _____ tool makes freeform selection of an image.

- A. Marquee
- B. Lasso
- C. Quick Selection
- D. Pick

ANSWER: B

55. The _____ tool provides an easy way to make a selection by painting over the desired are in an image.

- A. Marquee
- B. Lasso
- C. Quick Selection
- D. Pick

ANSWER: C

56. The _____ marquee tool is used to select a single row of pixels of an image

- A. Rectangular
- B. Elliptical
- C. Single Row
- D. Single Column

ANSWER: C

57. The _____ marquee tool is used to selects portions of an image in an elliptical or circular shape.

- A. Rectangular
- B. Elliptical
- C. Single Row
- D. Single Column

ANSWER: B

58. _____ creates soft edges around a selection so that it blends into the background or another image.

- A. Subtract from selection
- B. Anti-alias
- C. Style
- D. Feather

ANSWER: D

59. _____ lets to refine the edges of a selection.

- A. Subtract from selection
- B. Refine edge
- C. Style
- D. Feather

ANSWER: B

60. The _____ tool makes selection by snapping to the distinct edges in the image.

- A. Lasso
- B. Polygonal
- C. Magnetic
- D. Marquee

ANSWER: C

61. The _____ tool is used to select contiguous or detached areas of the same color.

- A. Quick selection
- B. Lasso
- C. Magic Wand
- D. Pen

ANSWER: C

62. In Magic wand tool _____determine the similarity of the pixels that will be selected.

- A. Tolerance

- B. Contiguous
 - C. Sample
 - D. Pen tool
- ANSWER: A

63. In Magic wand tool _____ selects only adjacent areas of the clicked or selected colors.

- A. Tolerance
 - B. Contiguous
 - C. Sample
 - D. Pen tool
- ANSWER: B

64. The _____ command selects areas of the image based on a single color or range of colors.

- A. Tolerance
 - B. Contiguous
 - C. Sample
 - D. Color range
- ANSWER: D

65. The _____ command helps to select the unselected area.

- A. Tolerance
 - B. Contiguous
 - C. Sample
 - D. Inverse
- ANSWER: D

66. The puppet warp command was introduced in photoshop _____.

- A. CS4
 - B. CS5
 - C. CS6
 - D. CS3
- ANSWER: B

67. The _____ command provides a visual mesh that lets to radically distort/reshape specific image areas, while leaving other areas intact.

- A. Quick selection
 - B. Lasso
 - C. puppet warp
 - D. Pen
- ANSWER: C

68. In puppet warp command the _____ determines the elasticity of the puppet mesh.

- A. Mode
 - B. Density
 - C. Expansion
 - D. Pin depth
- ANSWER: A

69. In puppet warp command the _____ determines the spacing of the puppet mesh.

- A. Mode
- B. Density

- C. Expansion
- D. Pin depth

ANSWER: B

70. In puppet warp command the _____ changes the stacking order of the pins, where a puppet warp distortion results in elements.

- A. Mode
- B. Density
- C. Expansion
- D. Pin depth

ANSWER: D

71. Photoshop allows modifying images in _____ ways.

- A. One
- B. two
- C. three
- D. four

ANSWER: B

72. In _____ editing, it modifies the original pixels of an image.

- A. Destructive
- B. Nondestructive
- C. Constructive
- D. Expansion

ANSWER: A

73. In _____ editing, phototshop does not change the original pixels rather use layers or mart objects to edit the image

- A. Destructive
- B. Nondestructive
- C. Constructive
- D. Expansion

ANSWER: B

74. _____ gives the ability to separate individual elements of design, and then modify those elements separately.

- A. Layer
- B. Mask
- C. Layer mask
- D. both (i) and (ii)

ANSWER: A

75. A _____ stores information about selection or layer visibility in the channels panel.

- A. Layer
- B. Mask
- C. Layer mask
- D. both (i) and (ii)

ANSWER: B

76. Mask creates _____ areas in the image.

- A. Grayscale

- B. Bitmap
- C. Black and white
- D. Transparent

ANSWER: D

77. Photoshop creates the new pixels based on the color values of the surrounding pixels. This process is called _____.

- A. Interpolation
- B. Intrapolation
- C. Extrapolation
- D. Polation

ANSWER: A

78. The file size in photoshop is measured in _____.

- A. Kilobyte
- B. megabyte
- C. gigabyte
- D. all the above

ANSWER: D

79. _____ is defined as the height and width of an image.

- A. Document size
- B. Layer
- C. Mask
- D. Layer mask

ANSWER: A

80. What unit the height and width of an image can be measured?

- A. Inches
- B. centimeters
- C. millimeters
- D. all the above

ANSWER: D

81. _____ is the process of removing unwanted portions from an image to focus an important portion of the image.

- A. Cropping
- B. Layer
- C. Mask
- D. Layer mask

ANSWER: A

82. _____ are made up of pixels that lie in a horizontal grid

- A. Scalar image
- B. Vector Images
- C. Raster images
- D. Raster Vector images

ANSWER: C

83. The _____ is the unit for measuring the quality of the image

- A. Centi

- B. Pixel
- C. Pie
- D. Per

ANSWER: B

84. The _____ are resolution dependent

- A. Scalar images
- B. Vector images
- C. Raster images
- D. Random images

ANSWER: C

85. A _____ can be described by using mathematical definitions.

- A. vector image
- B. Scalar image
- C. Raster image
- D. Random image

ANSWER: A

86. Each vector is made up of lines and curves known as _____.

- A. layer
- B. links
- C. path
- D. segments

ANSWER: D

87. _____ can be defined as the number of pixels per unit length

- A. Solution
- B. Resizing
- C. Resampling
- D. Resolution

ANSWER: D

88. Expand ppi

- A. pixels per inch
- B. pica per inch
- C. pi per inch
- D. prime per inch

ANSWER: A

89. _____ are the basic building blocks that made up raster images.

- A. Centi
- B. Pie
- C. Pixel
- D. Per

ANSWER: C

90. Pixel is also called as _____.

- A. Picture element
- B. resolution
- C. solution

D. segments
ANSWER: A

91. The _____ modifies the image size without altering the total number of pixels.
- A. Solution
 - B. Resizing
 - C. Resampling
 - D. Resolution

ANSWER: B

92. _____ modifies the image size as well as alters the actual number of pixels.
- A. Solution
 - B. Resizing
 - C. Resampling
 - D. Resolution

ANSWER: C

93. _____ is the complete area of an image that can be edited and printed.
- A. Path
 - B. Canvas
 - C. Layer
 - D. Mask

ANSWER: B

94. In raster based programs, the shape and type tools are used to create _____ graphics.
- A. Scalar
 - B. Vector
 - C. Raster
 - D. Random

ANSWER: B

95. Shapes are _____ , which allows to resize without creating jagged edges.
- A. Resolution
 - B. Resolution dependent
 - C. Resolution -independent
 - D. Solution independent

ANSWER: C

96. _____ tool is used to trace the part of an image.
- A. Shape
 - B. Eyedropper
 - C. Quick Selection
 - D. Pen

ANSWER: D

97. _____ involves placing one image over another and conflating them by changing the opacity or blend mode.
- A. Ghosting
 - B. Cropping
 - C. Hosting
 - D. Blending

ANSWER: D

98. _____ modes determines the interaction of colors in different layers.

- A. Ghosting
- B. Cropping
- C. Hosting
- D. Blending

ANSWER: D

99. The _____ blending mode works with a layer that has opacity setting of less than 100%.

- A. Normal
- B. Dissolve
- C. Darken
- D. Multiply

ANSWER: B

100. The _____ blending mode reflects the blend color by brightening the base color.

- A. Dissolve
- B. Linear Dodge
- C. Color Dodge
- D. Overlay

ANSWER: B

101. The _____ filter is used to push,pull,reflect,pucker and bloat an area of the image

- A. Pattern maker
- B. Vanishing Point
- C. Extract
- D. Liquify

ANSWER: D

102. _____ makes an image appear as a hand drawn sketch using the graphic pen or chalk and charcoal.

- A. Filter
- B. Pen
- C. Mask
- D. Layer

ANSWER: A

103. _____ are useful as they can remain fully editable with their original characteristics.

- A. Layer
- B. Smart Objects
- C. Filter
- D. Mask

ANSWER: B

104. The filter under _____ Filter are used to retouch and repair images in phototshop.

- A. Blur
- B. Wind
- C. Grain
- D. Sharpen

ANSWER: A

105. _____ filter are used to create special effects, such as cloud patterns and simulated light reflections in an image.

- A. Blur
- B. Wind
- C. Render
- D. Sharpen

ANSWER: C

106. _____ filter uses foreground and background colors to create the fiber effect and replaces the original image

- A. Lens flare
- B. Lighting effects
- C. Fibers
- D. Clouds

ANSWER: C

107. An _____ is a series of recorded photoshop commands that can be played back repeatedly at any time.

- A. Action script
- B. Action
- C. Task
- D. Time

ANSWER: B

108. _____ can be defined as a batch of actions that are put together into one powerful command

- A. Action
- B. Automation
- C. Task
- D. Filter

ANSWER: B

109. The _____ command executes an action on multiple files placed inside a folder.

- A. Action
- B. Automation
- C. Batch
- D. Filter

ANSWER: C

110. Batch Processing allows to apply an _____ to an entire folder of images.

- A. Automation
- B. Filter
- C. Time
- D. Action

ANSWER: D

111. Expand TIFF.

- A. Tag icon File Format
- B. Tagged Image File Format
- C. Tab Image File Format
- D. Time Icon File Format

ANSWER: B

112. Merge is also called as _____.

- A. Sharp
- B. Blur
- C. Blend
- D. Flatten

ANSWER: D

113. _____ is a technique used to composite multiple images seamlessly into a single image.

- A. Blend
- B. Blur
- C. Masking
- D. Straight

ANSWER: C

114. _____ masks are resolution independent.

- A. Scalar
- B. Vector
- C. Raster
- D. Random

ANSWER: B

115. Which mask creates a well defined and sharp edged shape on a layer?

- A. Vector
- B. Scalar
- C. Raster
- D. Random

ANSWER: A

116. _____ is a raster graphics editor.

- A. Adobe Photoshop
- B. Adobe Photoshop Elements
- C. Adobe Flash
- D. Adobe Illustrator

ANSWER: A

117. Pixels represent tiny _____ of color, which are typically unseen by the naked eye

- A. circles
- B. squares
- C. inches
- D. swatches

ANSWER: B

118. The _____ mode feature helps to make selections using painting and drawing tools without creating channel masks.

- A. Quick Mask
- B. Quick selection
- C. Lasso
- D. Magic Wand

ANSWER: A

119. In blending modes, _____ multiplies the blend colors with the base colors.

- A. Linear dodge
- B. Lighten
- C. Overlay
- D. Multiply

ANSWER: C

120. In Blending mode, _____ create the luminance and saturation effect of the base color and the effect of the blend color.

- A. Hue
- B. Saturation
- C. Luminosity
- D. pin light

ANSWER: A

121. In the layer style, _____ fills a layer with a solid color.

- A. Stroke
- B. Pattern Overlay
- C. Gradient overlay
- D. Color overlay

ANSWER: D

122. _____ is defined as a set of mathematical expressions that define letters, numbers and characters.

- A. Letter
- B. Text
- C. Alphabet
- D. Vowels

ANSWER: B

123. The _____ panels allow changing the font family and font style.

- A. Color
- B. Paragraph
- C. Character
- D. Layers

ANSWER: C

124. Rulers display on the ____ of the document window.

- A. top and left sides
- B. top and right sides
- C. bottom and left sides
- D. bottom and right sides

ANSWER: A

125. A pixel is an individual dot of _____ that is the basic unit to create digital images.

- A. color
- B. tone
- C. shade
- D. light

ANSWER: D

126. The _____ displays the active open file.

- A. Document window
- B. Menu bar
- C. Title Bar
- D. Status bar

ANSWER: A

127. _____ is used for focusing on certain parts of a photo.

- A. Cropping
- B. Masking
- C. Layering
- D. Zooming

ANSWER: D

128. A _____ tool is a type of fill that is made up of two or more colors blended together.

- A. Eyedropper
- B. Gradient
- C. paint bucket
- D. Patch

ANSWER: B

129. In Gradient tool _____ applies the gradient from the start point to the end point in a straight line.

- A. Angle gradient
- B. Reflected Gradient
- C. Diamond Gradient
- D. Linear Gradient

ANSWER: D

130. 15. In gradient tool, _____ applies the gradient at a defined angle.

- A. Angle gradient
- B. Reflected Gradient
- C. Diamond Gradient
- D. Linear Gradient

ANSWER: A

131. The _____ tool works similar to paintbrushes tool in the real world.

- A. Eyedropper
- B. Gradient
- C. Brush
- D. Stroke

ANSWER: C

132. The brush tool paint smooth _____ with the foreground color of an image.

- A. Pencil
- B. Brush
- C. Gradient
- D. Stroke

ANSWER: D

133. The _____ Brush tool options produces the spray effect.

- A. opacity
- B. airbrush
- C. flow
- D. mode

ANSWER: B

134. _____ tool was introduced in photoshop cs5.

- A. Mixer brush tool
- B. eyedropper
- C. Move
- D. Zoom

ANSWER: A

135. _____ tool allows to manually paint color,hue saturation and luminosity values with a brush.

- A. Gradient
- B. eyedropper
- C. Color Replacement
- D. Mixer brush

ANSWER: C

136. _____ tool has bristle tips options.

- A. Gradient
- B. eyedropper
- C. Color Replacement
- D. Mixer brush

ANSWER: D

137. _____ tool allows to combine two or more color on a single brush tip.

- A. Pencil
- B. Brush
- C. Mixer Brush
- D. Gradient

ANSWER: C

138. Color replacement tool can not be used with _____.

- A. Bitmap
- B. RGB
- C. CMYK
- D. Grayscale

ANSWER: A

139. In CMYK color mode K Stands for _____ color.

- A. Brown
- B. White
- C. Black
- D. Orange

ANSWER: C

140. The _____ tool is used to clone or duplicate selected areas of an image and paint the area over another part or image.

- A. Retouching
- B. Patch
- C. Spot Healing
- D. Clone stamp

ANSWER: D

141. _____ tool clones form predefined pixels such as pattern.

- A. Pattern stamp
- B. Clone stamp
- C. Spot healing
- D. Patch

ANSWER: A

142. The _____ tool is used to rapidly retouch imperfections in an image.

- A. Clone stamp
- B. Patch
- C. Spot healing
- D. Gradient

ANSWER: C

143. _____ tool allows to remove imperfections by merging them into the surrounding area and making them disappear.

- A. Pattern stamp
- B. Healing Brush
- C. Clone stamp
- D. Eyedropper

ANSWER: B

144. _____ is used to retouch imperfections by taking samples from the correct area and matching the texture, transparency and shading of the imperfect area.

- A. Patch tool
- B. Healing Brush tool
- C. Gradient tool
- D. Eyedropper Tool

ANSWER: A

145. _____ tool removes portions of an image and replaces the deleted portion with the current background color or transparency.

- A. Eraser
- B. Brush
- C. Stroke
- D. Magic Wand

ANSWER: A

146. _____ tool softens an image or makes it blurry.

- A. Sharpen
- B. Dodge
- C. Blur
- D. Sponge

ANSWER: C

147. _____ tool is opposite in function to dodge tool.

- A. Brush
- B. Blend
- C. Blur
- D. Burn

ANSWER: D

148. _____ tool lightens the pixels in an image.

- A. Sharpen
- B. Dodge
- C. Blur
- D. Smudge

ANSWER: B

149. _____ tool is used to drags out the image pixels and creates the effect of smudging wet paint with a finger.

- A. Sharpen
- B. Dodge
- C. Smudge
- D. Sponge

ANSWER: C

150. _____ tool modifies the color saturation of an area in the image.

- A. Burn
- B. Blur
- C. Brush
- D. Sponge

ANSWER: D

Staff Name
Sumathi P .
