COIMBATORE – 641 014

ANNUAL REPORT – ACADEMIC YEAR 2023 - 2024

Dr. G R DAMODARAN COLLEGE OF SCIENCE (Autonomous) entered the **37th year** of its **Service to the cause of education** during September 5, 2023. The year **2023-2024** was an eventful one, thro' **multifaceted development**, particularly in terms of **quality enhancement** and **academic professionalism**.

Landmarks and Highlights of 2023– 2024:-

- The **Dr.G.R.DAMODARAN COLLEGE OF SCIENCE(Autonomous)** continued to enjoy the **Autonomous** status for the **Nineteenth year** in **succession**. It is **Autonomous, affiliated** to the **Bharathiar University, Coimbatore** and is recognized by the **UGC**. The **MBA (Full Time)** and the **MCA** courses are both **approved** by the **AICTE**. The **CRISIL** had rated **“A” (TN)** related **to the MBA and MIB Courses**.
- It's impressive to hear about the achievements of Dr. G.R. Damodaran College of Science (Autonomous) as a SWAYAM and NPTEL Local Chapter. The variety of courses offered across Arts, Science, and Commerce fields since 2020 has evidently enriched the Students' learning experiences and contributed to their academic success.

Receiving the title of "The Best Local Chapter in Arts, Science and Commerce Category" for the period from July to December 2023 is a significant recognition of the College's dedication and the Students' hard work in pursuing the Swayam online courses. Such accolades underscore the importance of online education in the digital era, providing students with diverse learning opportunities aligned with their interests and career aspirations.

Indeed, online courses not only broaden the Students' knowledge horizons but also equip them to face competitive challenges, particularly in career placements. This recognition reflects a commitment to excellence in education and preparation for the evolving demands of the professional world.

Congratulations to Dr. G.R. Damodaran College of Science (Autonomous) on this remarkable achievement, and may the Institution continue to inspire and empower Students through its innovative educational initiatives. **(Enclosed Certificate in Page Number: 54)**

➤ **GREEN ENERGY INITIATIVES**

- The Department of Education's emphasis on Environment and Green Audit is crucial for fostering sustainability within the educational Institution, and Dr. G.R. Damodaran College of Science (Autonomous) has demonstrated commendable initiative in this regard.

In collaboration with the Ram Kalam Centre for Energy Consultancy and Training, the College conducted a Green Audit during December 2023. This audit evaluated various aspects of environmental impact, including green cover on campus, surface water harvesting, rooftop water harvesting, rooftop solar systems, and waste management practices.

It's truly noteworthy that the National Rural Institutions Sustainability Grading (NRISG) has accredited the College with the "A" and "A+" grades across these

parameters. This accreditation not only validates the Institution's efforts but also underscores its commitment to maintaining an eco-friendly environment.

Such achievements reflect the College's proactive approach towards sustainability and environmental stewardship. By integrating these practices into its operations, Dr. G.R. Damodaran College of Science (Autonomous) sets a commendable example for other educational institutions to follow.

Congratulations to the College on this significant accreditation, and may it continue to lead by example in promoting environmental consciousness and sustainable practices within its campus community.

➤ **SOLAR SYSTEMS – Photos in Page No. 83**

Effluent Treatment Plant: - (Photos in Page No. 93-94)

An Effluent Treatment Plant has been set up in the College campus, which is functioning for the past 15 years. It is located adjacent to the SCIB (Commerce) Block. All the Toilets and waste water including the Hostel's toilets and kitchen waste water are collected, wherein waste water is recycled with the help of anaerobic bacteria which consumes the contagious bacteria thus cleansing the waste water within a reasonable time frame. The treated waste water is used for the gardening purposes without creating any hardships to the Students and others.

The plant is operated by the MAK India Pvt. Ltd., Coimbatore, an organic Company cultivating vegetables / fruits besides nurturing bacteria required for the Effluent Treatment Plant in Coimbatore district as well as neighbouring regions.

➤ **Online Grievances cell**

An online Grievances cell has been established through uploading of the E-mail id in the website of the Institution.

The Students can access the E-mail id, file their grievances which would be forwarded to the Principal / Management for effecting necessary corrective steps / remedial measures. The E-mail ID has been circulated to all the departments for onward transmission to the Students.

➤ **DEPARTMENT OF COMMUNICATION**

The Communication Department students hosted the **AVTAR FILM FESTIVAL** in a grand manner at the prestigious KAILASH auditorium on March 15th, 2024. The festival kicked off at 8:30 am and continued until 6:00 pm. Following a warm welcome address, the screening of movies and documentaries by the participants commenced. The short films and documentaries showcased were nothing short of extraordinary. The participants displayed an incredible amount of talent, creativity, and passion in their work, captivating the audience with thought-provoking narratives and visually stunning cinematography. Each film offered a unique perspective on various social issues, personal stories, and cultural experiences, leaving a lasting impact on the viewers.

The event commenced with the arrival of the esteemed chief guests, **Suresh Mari**, the director of the acclaimed film "**J.Baby**," and **Attakathi Dinesh**, the lead actor of the "**J.Baby**," Movie. The eagerly awaited trailer of "J.Baby" was unveiled to much anticipation and excitement. **Director Suresh Mari** took the stage to share his insights and experiences with the audience, followed by a heartfelt address from the talented **Actor Dinesh**, both of whom left a lasting impression on the crowd with their words of wisdom and passion for filmmaking.

- The School of Communication at Dr.G. R. Damodaran College of Science (Autonomous) conducted **TRIDENT** - "The Tides of hope", a Career Counselling programme and the prize distribution ceremony of the online Inter-School Competitions were organized to commemorate the 77th Independence Day. The event was organized at the College campus on 2nd of September, 2023.

We had Students from grade 9 to 12 from various Schools participating in the event held in the campus. Around 450 students from the GRD Public School, GRD Matric Higher Secondary School and the PSGR Krishnammal Hr. Sec. School joined us at the event.

In response to the escalating complexity of educational requirements, Students worldwide experience considerable career challenges. So in order to help the little buds to clear their minds about what they wanted to choose in life, The guest speakers for the career guidance session were **K. JESHI**, Deputy Editor and in-charge of Metro plus editions in Coimbatore, Madurai, and Trichy (The Hindu), as well as **RJ SRINIVAS**, Cluster Programme Producer, Controller of Coimbatore and Erode Suriyan FM.

They truly inspired the Students by their words and instilled in them a hope that everything in life can be handled patiently. K. Jeshi gave a total brief about what journalism truly is. She instilled confidence and motivated every Student present there with her mesmerizing words. The second part of the event included cultural performances like mime, wonderful band performance and a power-packed and energetic dance performance by the Students of School of Communication. The Students played along with the singers and the musicians throughout the session which made it very lively.

➤ **SONY MoU Signed**

An **MoU** signed by the **School of Communication, Dr. GRDCS**, with **Sony India Pvt. Ltd.** is a feather on the cap. In the realm of such dealings, understanding each other's goals and objectives is of paramount importance of MOU. Effective communication and clear terms are vital for the success of any venture. This is where a Memorandum of Understanding (MOU) can prove to be an invaluable asset. By enabling the signatories to outline their requirements and expectations, an MOU establishes a common intention for future engagements, fostering a shared understanding of the collaborative objectives. Through this MOU, the department can capitalize on the subject expertise from the technical team of Sony, for the benefit of the Student community. Further it can strengthen the infrastructure of the department by updating and adding the new arrivals in the market to its facility in a discounted price. The Students too could avail discounts while they are planning to purchase Sony products. The ultimate benefit of this MOU reaches the Student too. From their end the Sony India Pvt. Ltd. could boast about its MOU with the brand

GRD. It would be a value addition to them and a boost in their business as well. The knowledge sharing by the Sony team helps them to be ahead of their competitors too. On the whole this MOU could be considered one of the best practices of the Institution.

➤ **Dept. of Biotechnology – MoU signed:**

- A Memorandum of Understanding was signed between **Hajee Karutha Rowther Howdia College (Autonomous), Uthamapalayam, Theni Dt.**, and **G.R.D Medical Center, Chinnamanur, Theni Dt.** on 21st February 2024 by Dr.H.Mohamed Meeran, Principal of the College and Dr.D.Padmanaban, Managing Trustee, The GRD Trust. Functioning of the Autonomy

Our college is following Choice Based Credit system from the 2009 batch onwards and to enhance the boundaries of curriculum the college introduced Outcome Based Education (OBE) from 2020 batch onwards. Presently, the curriculum is shifted towards competency based and the teaching methodology focuses more on learner centric approaches. The performance of the students is measured through the Course/ Programme outcomes. As per the guidance of the Bharathiar University, *the mark split up of the Under Graduate and Post Graduate programmes from 2023 batch are changed as 25 for Continuous Assessment and 75 for Term End Examinations.*

The Board of Studies of the departments strengthen the possible learner-centric requisites to update/revise and redesign the curriculum of the various disciplines to ensure academic brilliance par excellence during 2023-2024. During the year, Boards of Studies meetings were convened and subject professionals from renowned Institutions / Corporate Sectors and distinguished alumni were invited for discussions to enhance the Course Structure. For Commerce and Management programmes, the respective Boards of Studies introduced Credit Transfer and exemption of courses during the last two semesters of the programme of study for the Students who completed equivalent courses under SWAYAM/MOOCs.

The Twenty First Academic Council Meeting of the College was convened on 1.9.2023 to scrutinize and approve the changes/updates in the various courses, Schemes and the Syllabi enhanced by the respective Boards of Studies.

The Autonomous Term End Examinations were conducted during November / December 2023 (odd semester) and April / May 2024 (even semester) as per the planned schedule.

The results were published with final year pass percentage of 94.87% and 98.15% in the UG and PG programmes respectively. Special Supplementary Term End Examinations for the various UG & PG Degree/Diploma programmes were conducted during the month of June, 2024 for the benefit of the outgoing final years who were not able to get their degree because of the arrears in only one subject among all the semesters. Twenty five Students had the eligibility to appear for the Special Supplementary Examinations, whereas twenty four students applied for the supplementary and twenty three Students have cleared their arrear examinations and secured their degrees. The pass percentage of the special supplementary Term End Examinations is 95.8.

The online direct verification system under the Global Document Authentication System (GDAS) Technology developed by *VFS Global* enables the document verification process at ease. The mark sheets and the other documents issued by the College are verified through the online verification process 'Direct Verify' (www.grdinstitutions.directverify.in) by various employers and educational Institutions across the world. For students who want to study in Canada, through the World Education Services (WES), the College signed a MoU with WES to e-transfer the transcripts, which will enable our Students to reduce their duration of processing.

INTERNATIONAL VISIT:

International Immersion Programmes are organized by the College for the Post Graduate and Under Graduate students. They are afforded opportunities to visit the countries like Malaysia, Singapore, Dubai, UK, Thailand, Germany, France and Switzerland. The International visits help the student to acquire new knowledge about the culture, tradition, customs and practices, food habits of different countries. They get the opportunity to gain the first hand experience of currency conversion, pattern of commercial transactions in the foreign soil. They come to understand the racial and linguistic differences that prevails in the country and also the religious sentiments and rituals followed in the country. They are given some opportunities to visit some industries and places of historical and political importance. This helps the students to know the history of the country, governance and its business practices.

CEO WORD SERIES:

CEO Word Series is an event for the Students pursuing Management and Commerce Programs in which the CEO of prominent companies from India and abroad are invited to interact with the students. The CEOs will share the success story of their company, achievements and its contributions to the society. The CEOs used to narrate the way they have faced the challenges posed by the competitors from within and outside the country.

Students are given opportunities to interact with the CEO by asking questions and clarifying their doubts. The industry expert reply to the queries of the Students with real life illustrations by quoting the incidents that happened in their own companies as well as the competing companies. This CEO Word Series facilitates the Students of management to have a broader awareness about the procedural aspect of the functioning of the companies.

WORKSHOPS / SHORT TERM COURSES:

The course IBM COGNOS offered by GRDIM, which helps in the development of students knowledge and usage of Analytic tool, that affords a good understanding about the real work task and how to carry out a task in a workplace. It is a web-based, integrated business intelligence suite by IBM. It provides a toolset for reporting, analysis, score

carding, and monitoring of events and metrics. The software consists of several components to meet the different information requirements in a company. The students are trained directly by the IBM staff with high level of experience in this field. It is a single environment that spans departmental and enterprise reporting. It is a tool which adds on good learning credits to the Students.

Short term courses conducted by eminent personalities help the Students to enrich their knowledge and also help them to bring out the innate entrepreneurial skills.

ALUMNI INTERACTION

The department of Management Science has an alumni network to foster a continuous link between the alumni and the Institution. This network is moving forward with intentions for the growth and development of the department and its students. This network acts as a platform between alumni and present students and also faculty of the institute and its administrative structure. The students who have passed out from the department every year contributed significantly through several non financial means during the last three decades to improve the facilities and infrastructure of the college with the help of active participation.

PLACEMENT INITIATIVES

DEPARTMENT OF COMPUTER SCIENCE

SOFTWARE TRAINING REPORT

Name of the Course: Python

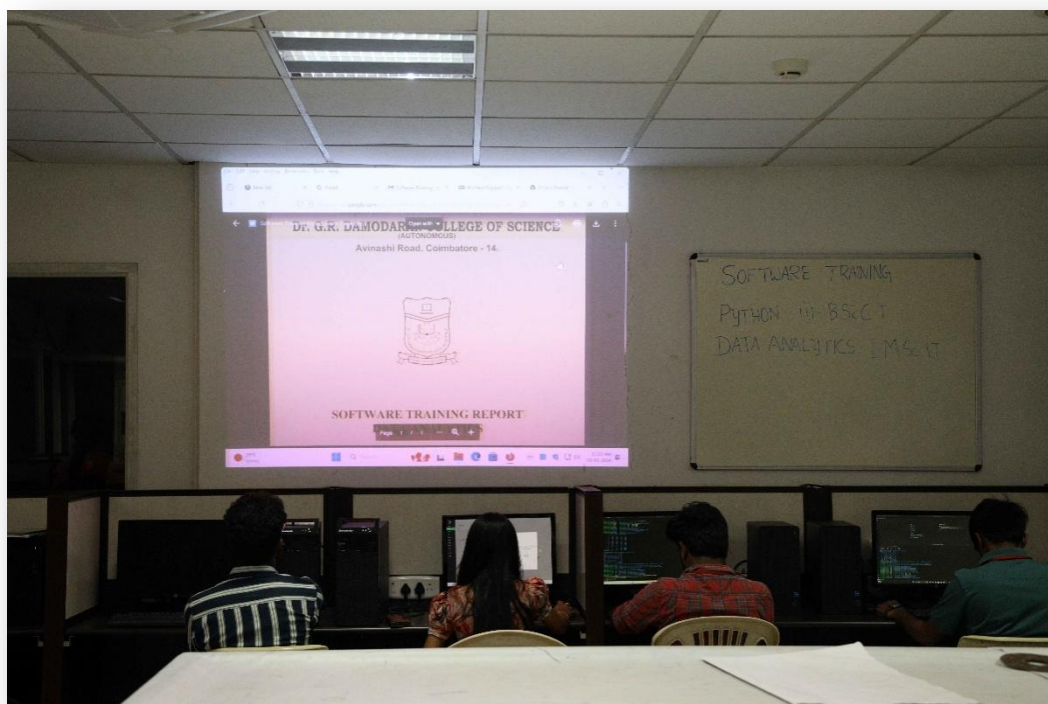

Class Offered: III B. Sc (CT)

Name of the Course: Data Analytics

Class Offered: I M. Sc (IT)

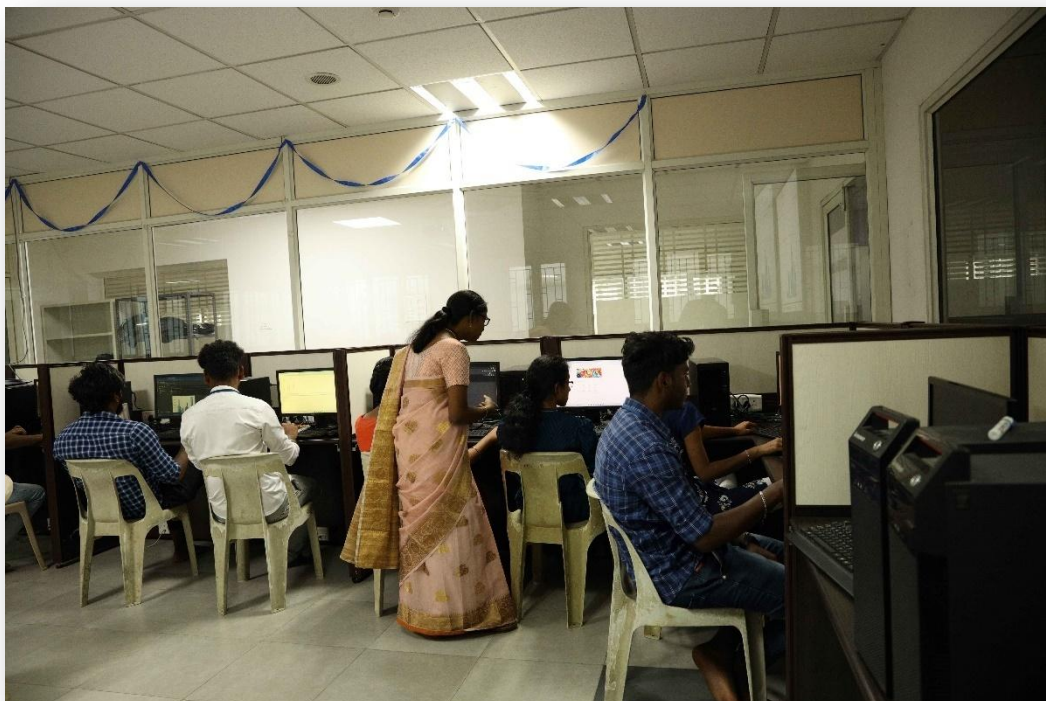

Course Duration: January to April, 2024

The Software training is conducted for the final year B. Sc(CT) Students on Python to enhance the programming skill of the Students and to create better placement opportunities. The Students of I M. Sc IT are also trained on Data Analytics to *increase efficiency and improve performance by discovering patterns in data*. The recent initiative by the Computer Science Department to incorporate advanced software training in Data Analytics and Python marks a significant step towards equipping students with essential skills for the digital age.

The software training is conducted in the Robotics Lab, to provide the Students with a comprehensive understanding and hands-on experience in these critical technological domains. The Students are expected to prepare the Case Study report for the evaluation of their work.

The Data Analytics component of the training program aims to introduce Students to the fundamentals and advanced techniques of analyzing vast datasets. Through this training, students will learn how to interpret data, identify trends, and make data-driven decisions. The curriculum covers various aspects of data analytics, including data visualization, statistical analysis, and the use of SPSS, Excel and R tool in data analytics. This knowledge is indispensable in a world where data plays a pivotal role in shaping business strategies, public policies, and scientific research.

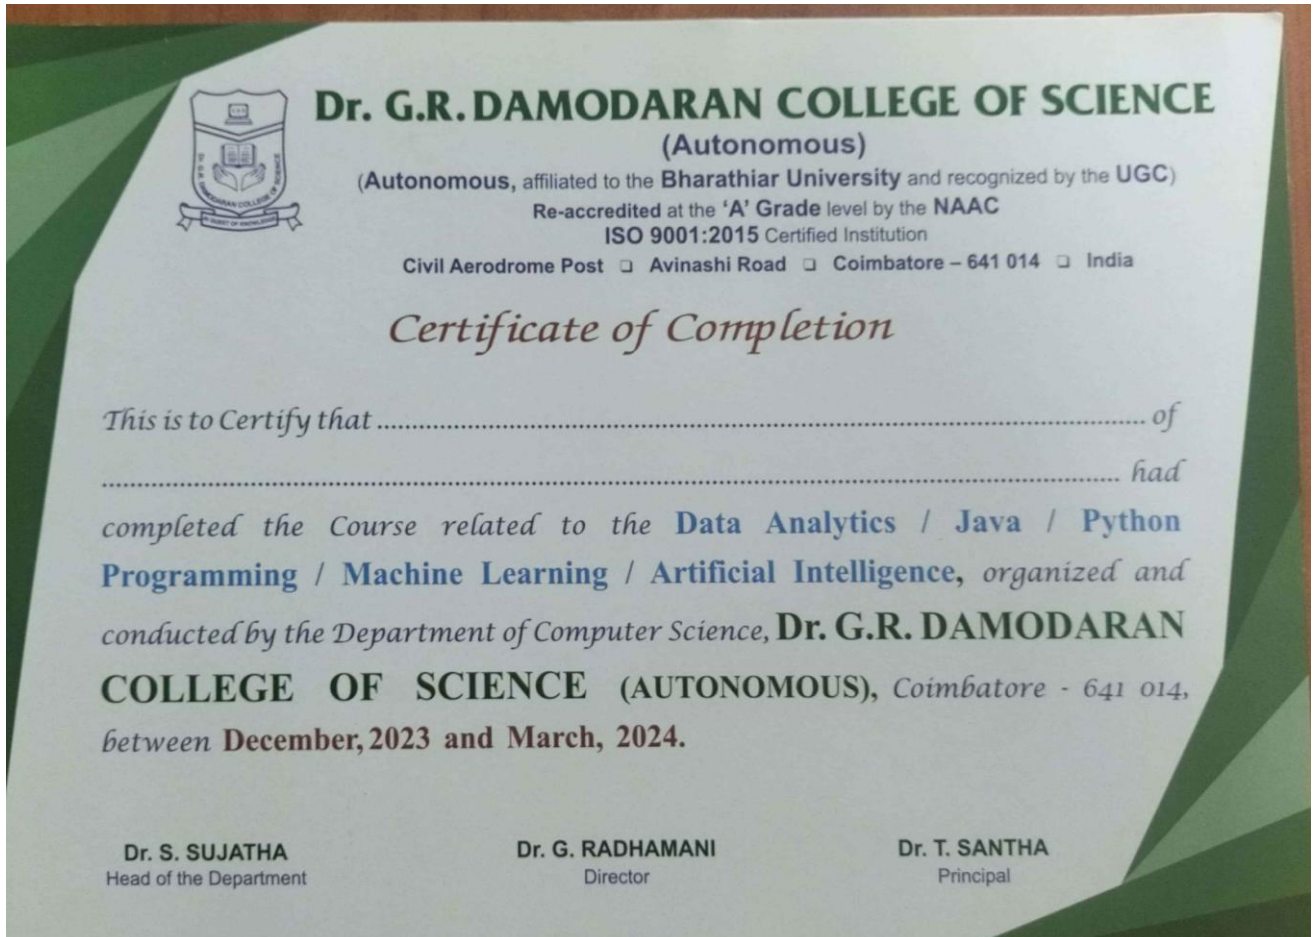

Python, known for its simplicity and versatility, has become the programming language of choice for many developers, data scientists, and software engineers.

The training in Python will cover basic syntax, data structures, control flow, and functions. Additionally, Students will delve into more advanced topics such as data manipulation using Python libraries like NumPy and pandas. By mastering Python, Students will be well-equipped to tackle a wide range of programming challenges and engage in more complex projects involving machine learning and artificial intelligence.

This phased approach ensures a solid foundation in both Data Analytics and Python. The initiative not only enhances the technical competencies of the Students but also aligns with the evolving needs of the industry.

By fostering a deep understanding of Data Analytics and Python, the program prepares Students for a wide array of career opportunities in technology, research, and beyond.

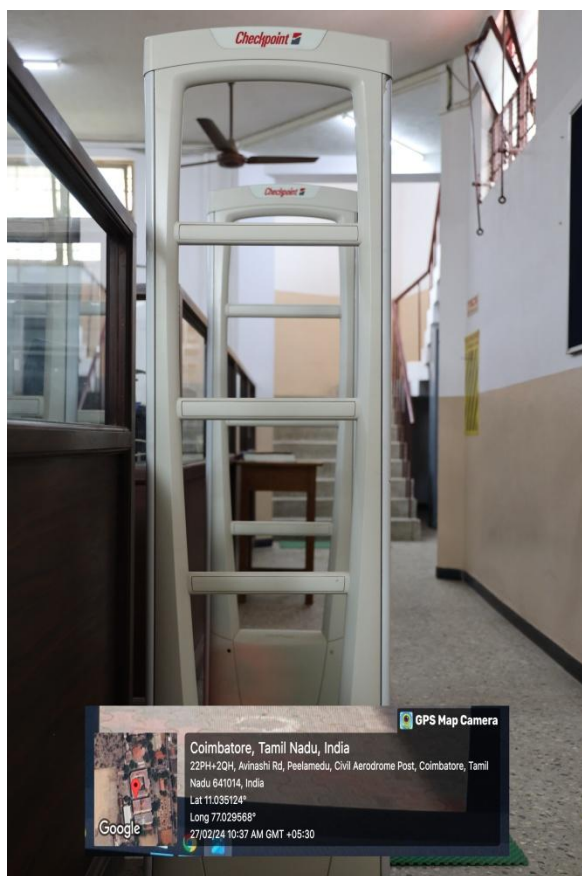

FACILITIES IN THE LIBRARY:

A provision has been made in the Library Software to enable the Students to reserve and procure the books in advance, wait for their turn to borrow. This is to enable the Students to obtain the books, the moment they are returned by the previous borrower, thus averting any delay pertaining to the borrower.

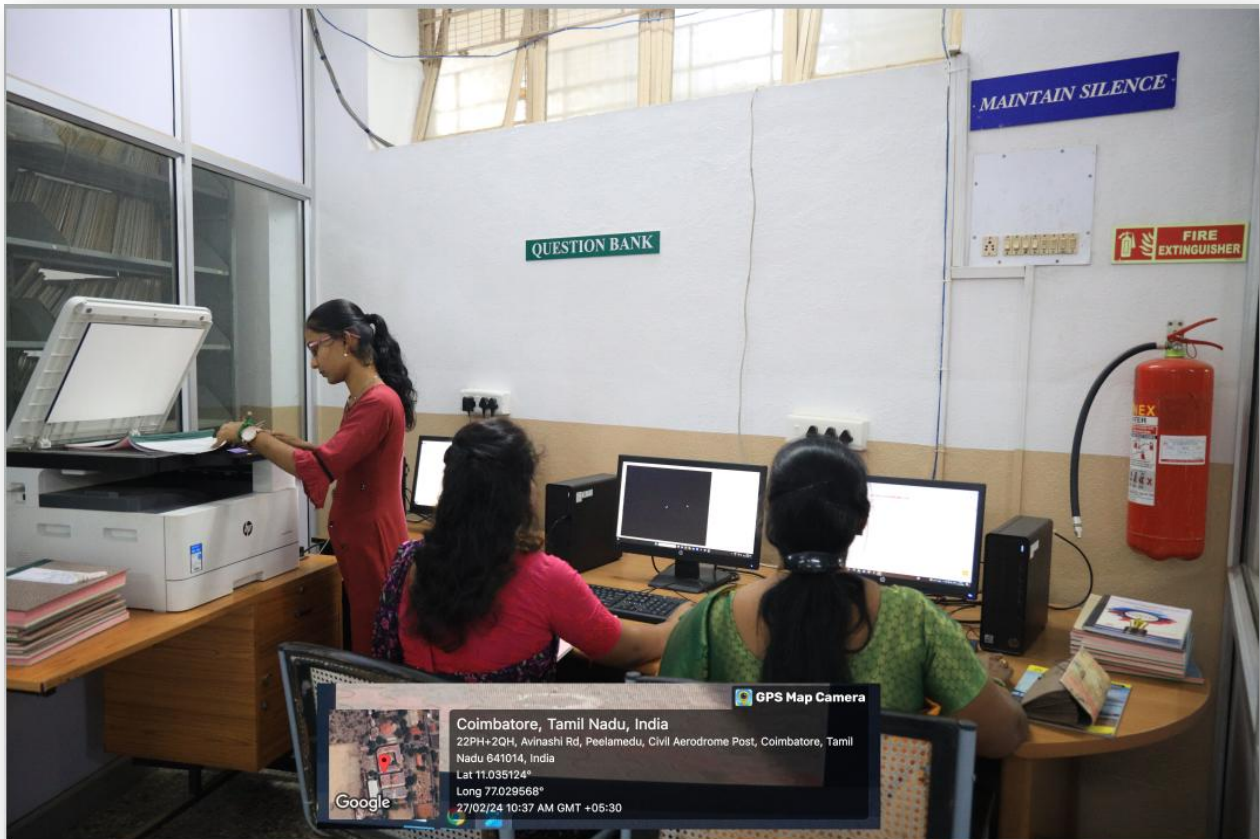

Additional Facilities in the Library:

Also, the RF Reader and the QR Code Scanner have been installed in the Library. An emergency exit also exists.

Question Bank

For enhanced learning experiences, student centric methods such as experiential learning, participative learning and problem solving methods have been integrated into the course content to build skills , confidence, and expectations for students to participate and develop attitudes such as resilience, tenacity, curiosity and self-direction. Programs are specifically designed in GRDCS for the slow and the advanced learners. By integrating the ICT tools, teachers can create a more interactive and collaborative learning environment, preparing students for the dynamic and tech-savvy industries they will be entering. One such tool is the Question Bank. Question banks are a valuable resource for both students and teachers. Both can use question banks to create and solve assignments, practice tests and revisions. This helps in assessing students' understanding of the topics and identifying areas that need more attention. They provide a wide range of questions that cover various topics, allowing students to practice and test their knowledge and understanding. The question bank in GRDCS has questions taken from various Universities and Previous year question papers from the college too. This extensive database would give a wide range of access to the student community and help them in equipping themselves with an array of questions. This would help the students to overcome the fear and anxiety of writing exams and thereby alleviate the potential malpractices they resort to during their exams.

REPORT ON MoU

A Memorandum of Understanding was signed between **Hajee Karutha Rowther Howdia College (Autonomous), Uthamapalayam, Theni Dt.**, and **G.R.D Medical Center, Chinnamanur, Theni Dt.** on 21st February 2024 by Dr.H.Mohamed Meeran, Principal of the College and Dr.D.Padmanaban, Managing Trustee, The GRD Trust.

HKRH College works with a greater vision to provide the best type of higher education to all, especially to students hailing from minority Muslim community, rural agricultural families and other deprived, under privileged sections of the society, inculcating the sense of social responsibility in them. The college is committed to produce talented, duly-bound citizens to take up the challenges of the changing times. On the other hand the **GRD Medical Centre has the vision** to offer the best services in patient care and it targets the downtrodden people of the society who are in dire need of good treatment. GRD Medical Centre offers emergency intervention related to the routine medical check-ups, besides a large variety of healthcare services. They conduct occasional medical camps too where specialist teams of doctors and paramedics provide medical treatment to the people living in poverty conditions. They hold regular awareness programs on health and hygiene.

The MoU is intended to recognize the general basis for a **cooperative and a collaborative working relationship between the two parties** that mutually enable the Students, to interact thro' various areas of internships and training activities. It also aims to facilitate training and capacity building platforms. This MoU will help the Students to gain first- hand experience of a workplace by inducting an internee into a real work environment. Thus the **MoU, valid for 5 Years was signed on common interests and objectives**, wherein they shall establish channels of communication and co-operation that will promote and advance their respective operations within the Institution and its related wings.

Effluent Treatment Plant: - Photos and Geo tag to be uploaded

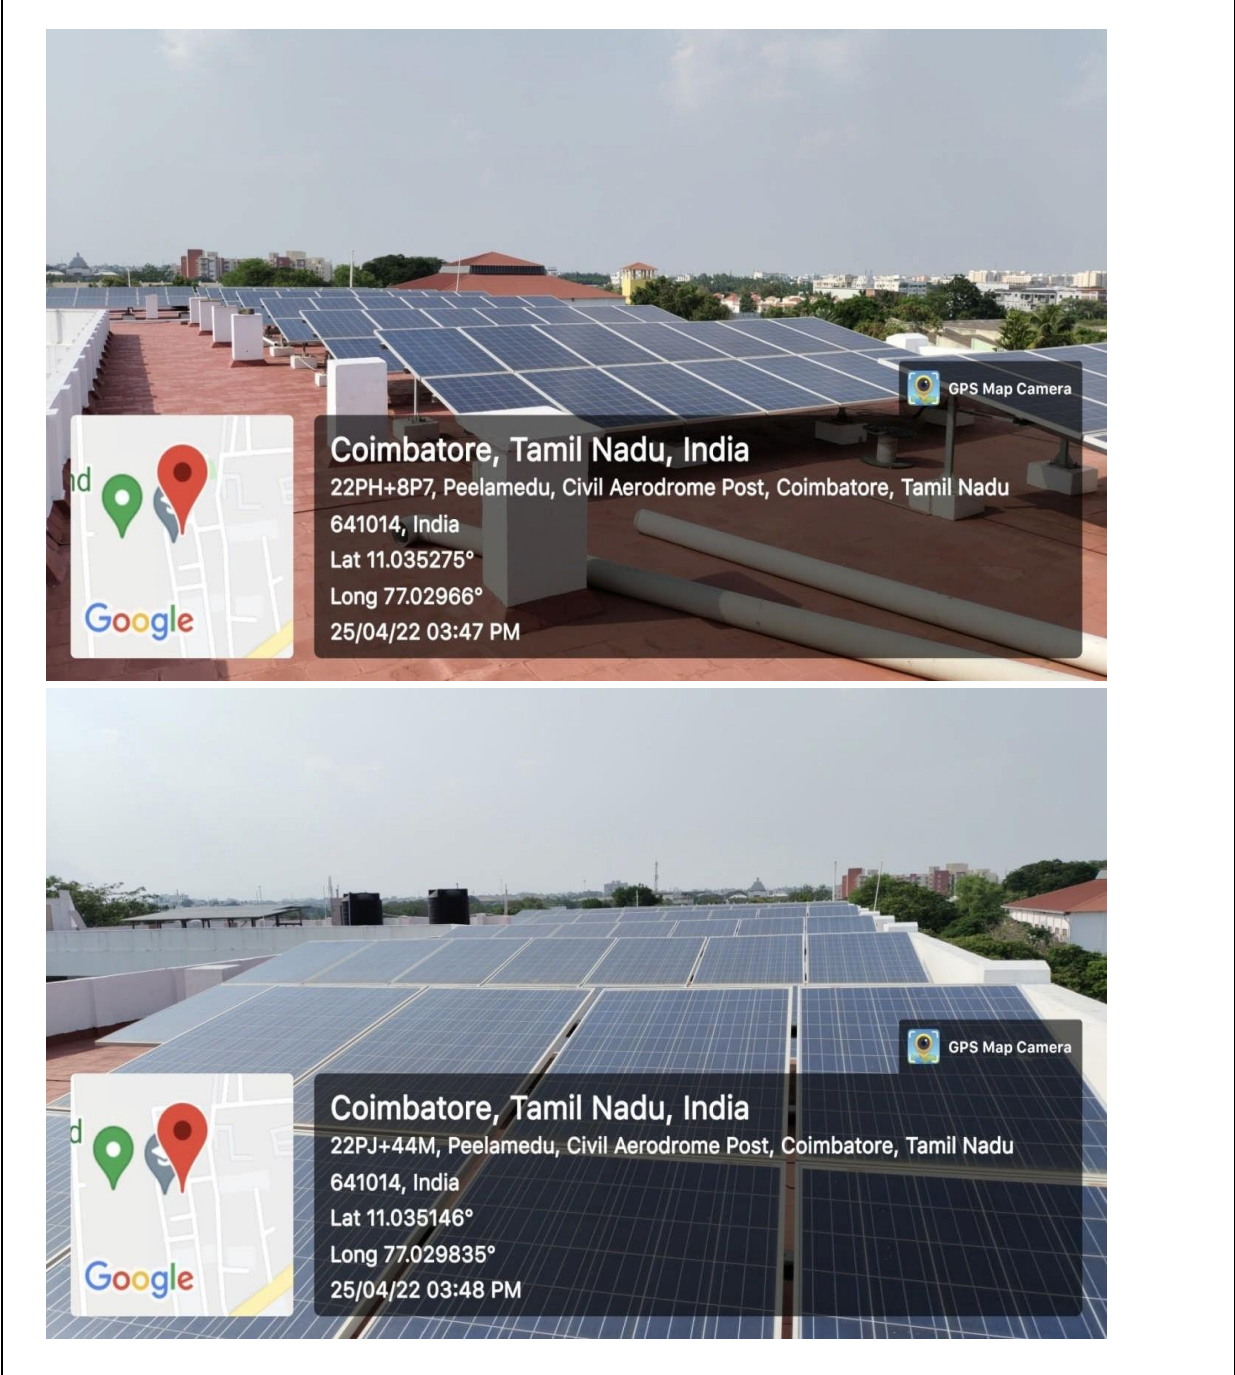

An Effluent Treatment Plant has been set up in the College campus, which is functioning for the past 15 years. It is located adjacent to the SCIB (Commerce) Block. All the Toilets and waste water including hostels toilets and kitchen waste water are collected, wherein waste water is recycled with the help of anaerobic bacteria which consumes the contagious bacteria thus cleansing the waste water within a reasonable time frame. The treated waste water is used for the gardening purposes without creating any hardships to the Students and others.

The plant is operated by the MAK India Pvt. Ltd., Coimbatore, an organic Company cultivating vegetables / fruits besides nurturing bacteria required for the Effluent Treatment Plant in Coimbatore district as well as neighbouring regions.

GREEN ENERGY INITIATIVES

Department of Education, under the direction of Ministry of the Education has emphasized the significance of Environment and Green Audit in all educational Institutions for each academic year.

Dr.G.R.Damodaran College of Science (Autonomous) in association with the Ram Kalam Centre for Energy Consultancy and Training conducted the **Green Audit in December, 2023** and assessed the institution's environmental impact stretching over various parameters like Green cover on campus, Surface Water Harvesting, Rooftop Water Harvesting, Rooftop Solar System and Waste Management on complete assessment, the **National Rural Institutions Sustainability Grading (NRISG) has accredited the campus with "A" and "A+" Grades** over various parameters.

This way, the Institution has proved over maintaining eco-friendly environment.

Production and Application of Vermicompost to the Plants

OBJECTIVES

- To impart Vermicompost training programmes to the Biotechnology Students.
- To produce a good quality Vermicompost thro' the use of crop residues, weed biomass, vegetable wastes, leaf litter and kitchen bio-waste from the Hostel and the Canteen gathered from the Dr.G.R.Damodaran College of Science (Autonomous), College campus.
- Application of Vermi-compost to all the trees and shrubs as well as the Coconut trees to enhance their growth.

Production process

The Vermicompost unit consists of 4 pits. The pit size is 14' x 6' x 1½' with a total capacity of 126 cft. The pits constructed in the College area in the open yard thro' laying thatched roofs built over them. This helps to maintain the optimum moisture of 40% - 50% and a temperature in the 20-30 degrees range. Higher moisture level also is fatal for earthworms as they cannot withstand high temperature. A wire mesh cover over the pit, protects the pits from cats, dogs and birds.

For the Vermicompost production purposes, vegetable waste materials were collected from the Hostel kitchen. Farm yard manure is procured from local farmers. The kitchen waste and other degradable waste material and the farm yard manure were mixed in the ratio of 8:1 and placed in the vermicompost pit. This feed mixture was allowed to decompose for at least 2-3 weeks. During this time, the mass heats up, and if earthworms are inoculated during this period, they will perish. Worms should be inoculated after this period. Periodic watering should be applied to the vermicompost pit. Once the partial decomposition is taken place, the earthworms can be inoculated in the vermicopost pit. Regular monitoring process is necessary. After 45 days the earthworms decompose the bio-waste and this turns to vermicompost. This can be separate out and applied to the crops.

DRUG ABUSE AWARENESS RALLY

DATE: 26.06.23

TIME: 10.30am

DAY: MONDAY

The drug abuse awareness rally was conducted in the college premises on Monday (26.06.23) by 10.30am. Around 100 students from B.Sc BT and B.Sc Visual Communication were actively participated in the awareness rally. The event was presided and flagged off by Dr. T.Santha, Principal, GRDCS along with NSS pos and class teachers.

The students actively participated and raised their voice against the usage of drugs and alcohol. They shouted various slogans opposing the drugs and its ill effects. The students used placards and banner in the rally to spread the awareness about the after effects of the drugs. The students were provided with refreshments after the rally. NSS Programme Officers and the Class Teachers contributed in organizing the rally within the campus.

REPORT ON WORLD HEALTH DAY

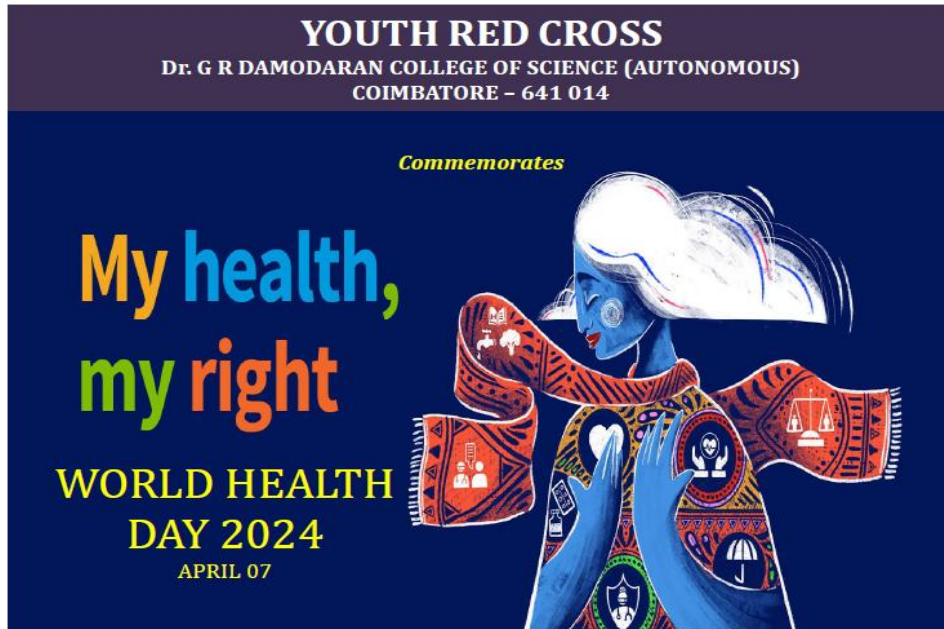

Millions of people's rights to health are increasingly in jeopardy throughout the world. The leading causes of mortality and disability are illnesses and natural disasters. Conflicts ruin lives by bringing about starvation, agony, death, and mental anguish. The combustion of fossil fuels is the primary cause of the global catastrophe and the denial of our right to breathe clean air, as one person dies from indoor and outdoor air pollution every five seconds.

According to data from the WHO Council on the Economics of Health for All, the constitution of at least 140 nations declares health to be a fundamental human right. However, nations are not enacting and implementing legislation to guarantee their citizens' access to healthcare. This supports the estimate that in 2021, at least 4.5 billion people, or more than half of the global population, lacked complete access to basic healthcare services.

"My health, my right" is the topic for World Health Day in 2024, which aims to address these kinds of issues.

The focus for this year is to support everyone's right to high-quality health care, education, and information, as well as their right to clean, safe water to drink, healthy food, adequate housing, respectable working and environmental circumstances, and freedom from discrimination.

In this year GRD-YRC Unit create awareness among the students by making a campaign about importance of health, significance of early diagnosis and they visited class wise and make the students to give a pledge on making their health prior and insisted them not to pollute environment which ends up in health issues.

BROADCAST &
MEDIATAINMENT
EXPO • 2023

Technovations for Showbiz

The Broadcast & Mediatainment Expo 2023 brought us great privileges of visiting Hyderabad city and attending a vast number of Masterclasses which certainly played a predominant role in enhancing our knowledge and understanding about the different aspects of mass media. Our college Dr G R Damodaran College of Science offered - Pradhan Shakthi, Jaideep, Varun Warrior, Yogeswar B Sura, Roshan Sam, Alvin Roy, Saran P, Swesthick Kumar, Kalyan and Abdul Hameed, this wonderful opportunity of attending the expo.

The Broadcast & Mediatainment Expo 2023 which was held at the Hitex exhibition Center Hyderabad from 13-15 December offered us the privilege to witness and experience many latest aspects in mass media. We saw many modern equipment used in films like the Action cameras, drones, light set etc. We also got a chance to meet many talented and experienced people throughout the country. The master classes played a tremendous role in boosting our knowledge and ideas about the various technical and creative aspects of mass media.

The first master class we attended was on the topic "How digital radio in FM Band benefits the Indian radio industry?" This enriched our knowledge about the digital radio in FM band and its relevance in today's world.

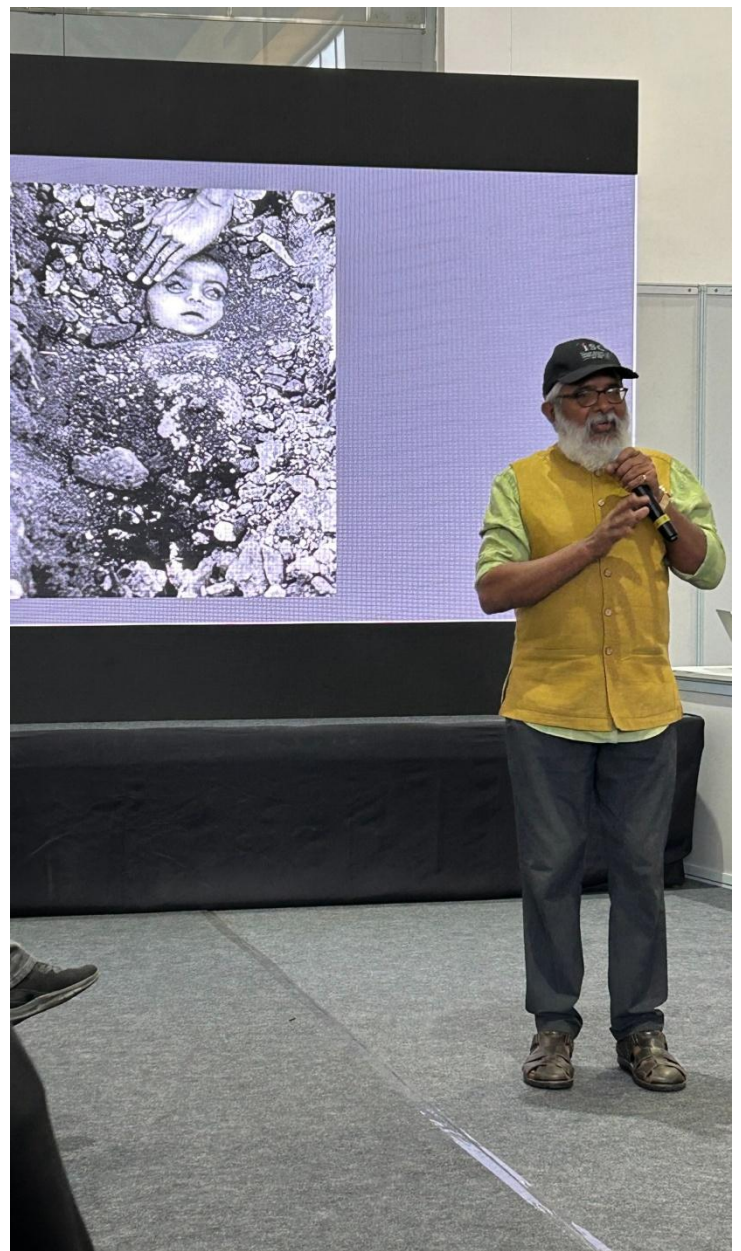

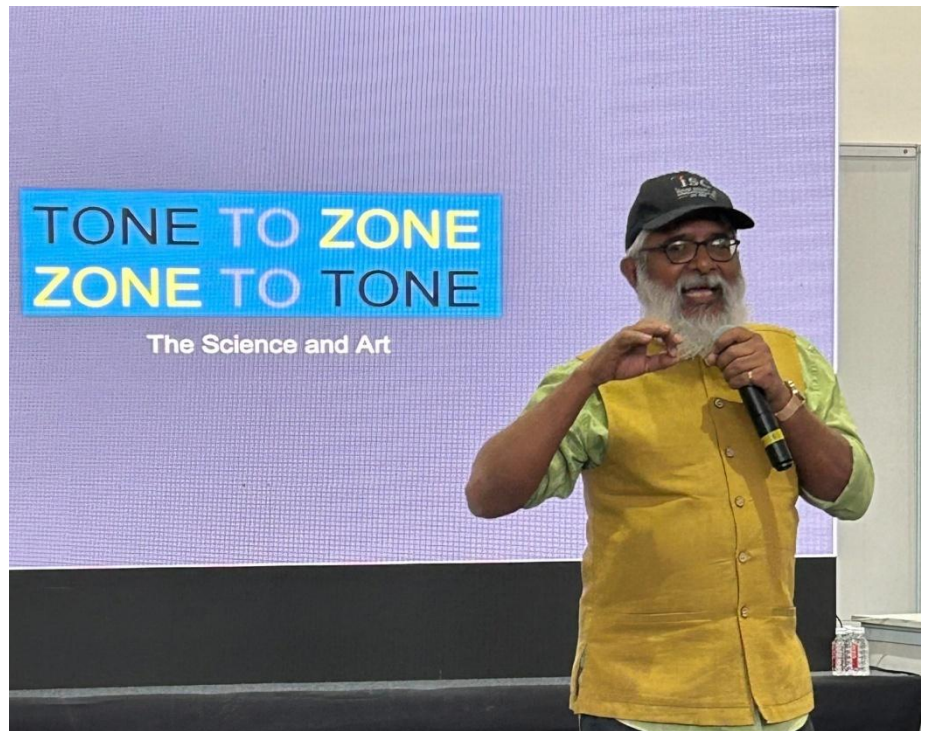

Here is a gist of what we learnt.

The introduction of digital radio in the FM band has brought significant benefits to the Indian radio industry. Digital radio offers superior sound quality, allowing listeners to enjoy a clearer and more immersive audio experience. This enhancement in audio quality contributes to a more engaging and enjoyable listening experience, attracting and retaining a broader audience.

Moreover, digital radio enables broadcasters to transmit additional data alongside the audio signals, opening up possibilities for interactive features, song information, and other multimedia content. This enhances listener engagement and provides advertisers with innovative opportunities for targeted and interactive campaigns.

The digitalization of FM radio also increases spectrum efficiency, allowing for more channels within the same frequency band. This expansion of available channels fosters diversity in content and caters to a wider range of interests, thus broadening the appeal of radio as a medium.

Furthermore, digital radio technology facilitates more reliable reception, reducing issues such as signal interference and static, which are common in traditional analog broadcasts. This reliability is crucial, especially in geographically diverse countries like India.

Sunny Joseph, an Indian cinematographer and director from Kerala, is most known for his work on the Shaji N. Karun classic *Piravi*, for which he received the 1988 Kerala State Film Award for Best Photography and the 1989 Cannes Film Festival's *Caméra d'Or—Mention Spéciale*

In summary, the adoption of digital radio in the FM band is revolutionizing the Indian radio industry by enhancing audio quality, enabling interactivity, expanding content diversity, and ensuring more reliable reception. These advancements not only benefit listeners but also create new opportunities for broadcasters and advertisers in an increasingly digital and competitive media landscape.

The next master class we attended was on the topic "Previsualization: Composition and Tonal range" taken by the famous cinematographer Sunny Joseph who has shown his immersive film making talents to the world through his notable works in movies like "Piravi" "Manichitathazhu" "Sivakasi" and soon. This class helped us to understand a wide variety of aspects regarding the composition and tonal range.

Here is a gist of what we learnt in the second master class. In photography and videography, previsualization, composition, and tonal range are pivotal for creating impactful visuals.

Previsualization involves planning and imagining the final result before shooting, streamlining the creative process. Composition, or how elements are arranged within the frame, enhances visual appeal and storytelling. Meanwhile, managing tonal range, the distribution of tones from dark to light, influences mood, atmosphere, and the clarity of details. These elements collectively contribute to the effectiveness and quality of the final images or videos, ensuring they capture attention and convey the intended message or emotion.

Mr. Sharad Sadhu
Technology Consultant and Former Director-
Technology, Asia Pacific Broadcasting Union

We also got a chance to attend and learn from many other masterclasses which were on different topics like

"Virtual production on budget"

"Connecting dots between cinema technology and business "

"AR and VR immersive technology"

"Demystifying virtual production: a guide to ICVFX workflow"

"Motion Capture" and soon....

It was indeed a great knowledgeable experience in being a part of this Broadcast & Mediatainment Expo. It has created a great impact in all of us and will surely be a boost on our pursuit toward success in the mass media field.

REPORT ON BIOFOCUZ 2023

ABOUTTHECOLLEGE:

Dr.G.R.DAMODARAN COLLEGE OF SCIENCE (Autonomous) was established in 1988, with the objective of providing career-oriented higher education and to create advanced study facilities in modern and emerging areas of relevance. The College enjoys the legacy of the great founder, Dr. G. R. Damodaran, in terms of his vision and concepts as well as his unswerving commitment to quality and relevance. The College has an outstanding infrastructure and other facilities with a group of highly motivated students and competent faculty who are focused on innovation towards excellence.

ABOUTTHEDEPARTMENT:

The School of Biotechnology is an active department involved in teaching and research in frontier areas of modern biology. The objectives of the School are to conduct high quality basic research and training in frontier areas of Modern Biology and promote facilities for new and modern techniques in the inter-disciplinary areas of Biology. Realizing Biotechnology as one of the greatest intellectual enterprises of human kind, the B.Sc., and the M.Sc., Biotechnology degree Courses were started in the year 1995 and 1999 respectively to provide the impetus that fulfills this potential of understanding the life processes and utilizing them to the advantage of humanity. Considering the need for creating a separate framework to strengthen Biology and Biotechnology, research in the Department was started in the year 2001 and the Students are enrolled for the M.Phil and Ph.D. Studies.

AIM OF THE PROGRAMME:

Science is always been an elemental knowledge of life, in which biotechnology are touched everyday in our lives. Portrayed as both a force for good as well as harm, the technology stirs passionate debate in the media, the corridors of power, and everyday conversations. This programme is aimed to outline the logical approach to new topics, ensuring students to connect theoretical study and practical work, which in turn helps to ignite the energy that accelerates young minds to understand the value of biotechnology and will enlighten them in the various opportunities of biological sciences.

AGENDA COVERED IN THE PROGRAMME:

- Hands on Isolation of DNA and Agarose Gel Electrophoresis
- Hands on ABO Blood Grouping
- Hands on Paper and Thin Layer Chromatography
- Hands on Bacterial Motility Test
- Demonstration of Plant Tissue Culture and Vermi Culture
- Visit to Bio business Exhibition Stall–Theme: Business through Biotechnology

DETAIL REPORT ON THE PROGRAMME (FROM INAUGURAL TO VALEDICTORY):

The programme aims to indoctrinate the science knowledge in the minds of the school children; initially an information brochure was prepared immediately after getting the sanction letter from TNSCST, Chennai and the brochures were circulated among the schools in and around Coimbatore Districts. From this we have got positive approach from 20 schools. On the day of the programme **17 schools positively visited our college for**

the programme and total of 251 students registered for the same. Lab manuals with detailed work procedure of proposed practicals have been issued to all the students and accompanied school faculty.

Biofocuz programme was conducted on 18.08.2023. Inauguration ceremony took place in Charles Babbage Hall, Dr.G.R.Damodaran College of Science (Dr.GRDCS), Coimbatore. Programme started sharply at 9.35 a.m with Tamil Thai Vazhthu, followed by welcome address by Dr.V.Kalaigandhi, Assistant Professor, School of Biotechnology, Dr.GRDCS (Autonomous). In order to build inquisitiveness and to make them embark on practical and technical session effectively it was informed to the participants that quiz will be conducted on the end of the day, later it was followed by technical session from following resource person.

INTERNATIONAL VISIT:

international Immersion Programmes are organised by the College for the Post Graduate and Under Graduate Students. They are given opportunities to visit the countries like Malaysia, Singapore, Dubai, UK, Thailand, Germany, France and Switzerland. The international visits help the student to acquire new knowledge about the culture, tradition, customs and practices, food habits of different countries. They get the opportunity to have the first hand experience of currency conversion, pattern of commercial transactions in the foreign soil. They come to understand the racial and linguistic differences that prevails in the country and also the religious sentiments and rituals followed in the country. They are given some opportunities to visit some industries and places of historical and political importance. This helps the Students to know the history of the country, governance and its business practices.

CEO WORD SERIES:

CEO Word Series is an event for the Students pursuing Management and Commerce Programs in which the CEO of prominent companies from India and abroad are invited to interact with the Students. The CEOs will share the success story of their company, achievements and its contributions to the society. The CEOs used to narrate the way they have faced the challenges posed by the competitors from within and outside the country.

Students are given opportunities to interact with the CEO by asking questions and clarifying their doubts. The industry expert reply to the queries of the Students with real life illustrations by quoting the incidents that happened in their own companies as well as the competing companies. This CEO Word Series facilitates the Students of management to have a broader awareness about the procedural aspect of the functioning of the companies.

CEO WORD SERIES:

CEO Word Series is an event for the Students pursuing Management and Commerce Programs in which the CEO’s of prominent companies from india and abroad are invited to interact with the Students. The CEO’s share their success stories, achievements and their contributions to the society. The CEO’s narrate the challenges faced by them from within and outside the country.

Students are given opportunities to interact with the CEO by asking questions and clarifying their doubts. The industry expert reply to the queries of the Students with real life illustrations by quoting the incidents that had happened in their own companies as well as the competing organisations. This CEO Word Series facilitated the Students of management to have a broader awareness about the procedural aspects of the functioning of the companies.

BLOOD DONATION CAMP-24

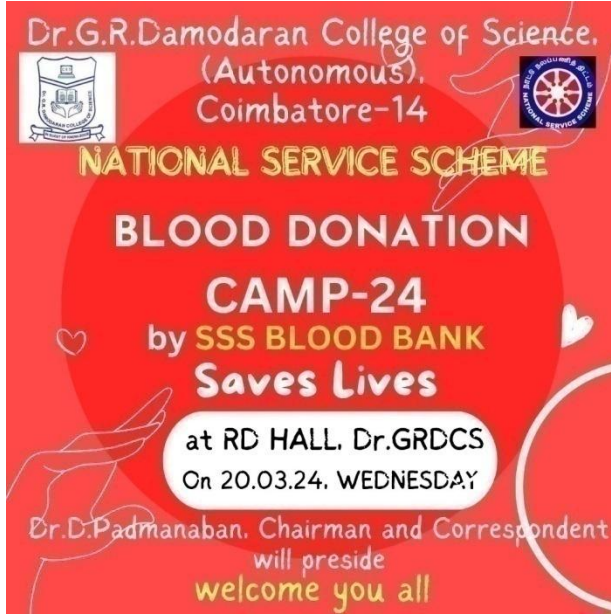

Date: 20.3.24

Place: RD Hall

A blood donation camp-24, supported by the SSS-Blood Bank, was held within the College premises on 20.3.2024. A list of approximately 100 volunteer donors from various departments was compiled prior to the camp. On the day of the camp, the SSS Blood Bank, along with 10 staff members, arrived at the GRD campus by 9:30 am. With the assistance of NSS volunteers, they promptly set up the necessary infrastructure, including beds and other essential items.

Blood Donation commenced at 10:30 am. Female Students with low haemoglobin levels were deemed ineligible for donation. Nonetheless, a total of 24 units were collected from the participating Students, although several potential donors were disqualified due to various reasons. Refreshments and lunch were provided for both the Blood Bank staff and NSS volunteers as a token of appreciation for their efforts throughout the event.

HELMET AWARENESS -23

DATE: 20-07-2023

NSS students volunteers were given information about helmet awareness which was conducted by the NSS students of G.R.DCS. Around 10 volunteers have enrolled their names information about the helmet awareness and the Students' role were discussed. in this program Students spread awareness among the Students and staffs in the entrance. The awareness was given from 9.00 am to 9.45 am (20-07-2023). Through this program we hope to have given Students and staff the importance of wearing helmet. Wearing helmets reduces casualties in traffic accidents and lives are saved. Helmets protect your eyes, ears, and head from the weather. On windy days, motorcycle helmets prevent ears from clogging your ears or distracting you while riding. It also prevents water from seeping into your eyes during the monsoon, and your head from scorching heat in the summer. Student volunteers took part in all the aspects like making and displaying placards, informing Students and making them wear helmet. Staffs appreciated the efforts of the student volunteers of NSS for the awareness and all the fellows of our friends accepted the helmet awareness.

SWACHHTA PLEDGE

Mahatma Gandhi dreamt of an India which was not only free but also clean and developed.

Mahatma Gandhi secured freedom for Mother India.

Now it is our duty to serve Mother India by keeping the country neat and clean.

I take this pledge that I will remain committed towards cleanliness and devote time for this.

I will devote 100 hours per year, that is two hours per week, to voluntarily work for cleanliness.

I will neither litter nor let others litter.

I will initiate the quest for cleanliness with myself, my family, my locality, my village and my work place.

I believe that the countries of the world that appear clean are so because their citizens don't indulge in littering nor do they allow it to happen.

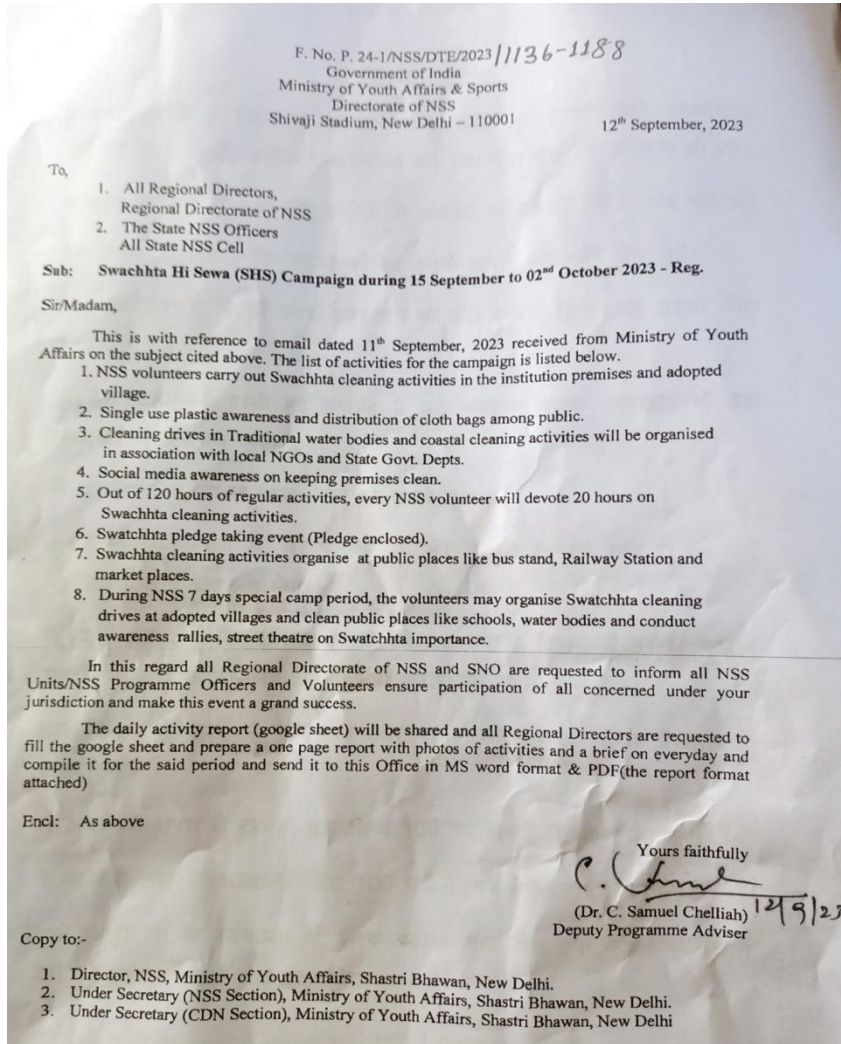

With this firm belief, I will propagate the message of Swachh Bharat Mission in villages and towns.

I will encourage 100 other persons to take this pledge which I am taking today.

I will endeavour to make them devote their 100 hours for cleanliness.

I am confident that every step I take towards cleanliness will help in making my country clean.

REPORT ON MILLET AND ITS NUTRITIONAL IMPACT – AWARENESS

Millets have numerous health benefits, including helping to lower your blood sugar and cholesterol levels. They're also gluten-free, so can be enjoyed by people with celiac disease or gluten sensitivities. Millet is a good source of protein, fiber, key vitamins, and minerals. The potential health benefits of millet include protecting cardiovascular health, preventing the onset of diabetes, helping people achieve and maintain a healthy weight, and managing inflammation in the gut. Millet is an adaptable grain and are rich in phenolic compounds, especially ferulic acid and catechins. These molecules act as antioxidants to protect your body from harmful oxidative stress.

Once a staple in the Indian diet, millets have been a long-lost entity for almost 4 decades. Therefore, the entire aim of the awareness initiative is to promote the intake of millets in our day-to-day life, generate awareness about their nutritional and health benefits and their adaptability for cultivation under unfavourable and changing climatic conditions and also to direct policy attention in this direction as well. This cause was totally kicked off by getting millets included through various nutritious items in breakfast, lunch, snacks, and dinner of the hostel mess menu.

The awareness was raised through posters and banners by YRC GRD Unit Students and volunteers attended a guest lecture on impact of millets in nutrition and its healthy benefits on 14.07.2023 organized by school of Biotechnology, Dr.GRDCS.

REPORT ON DRUG ABUSE AWARENESS PROGRAM

NSS and YRC units of GRD organized the awareness program on drug abuse on 10.08.2023 at Dr. G.R. Damodaran College of Science, Coimbatore for creating awareness among youngsters on the negative impacts of drug usage. Students from Biotechnology Department took part in the program and pledged an oath to stay away from drugs and prevent their peers from falling victim to them.

This coalition would work together to create a culture of responsible choices and help today's youth understand the importance of preventing drug abuse. Prevention of drug abuse among adolescents requires awareness of characteristics that place youth at risk and targeting risk factors that are modifiable.

The awareness program empowered the young people and communities to prevent drug use and addiction. The pledge taken by the Students would help keep themselves, their families and their loved ones away from drugs and to enjoy a hale and healthy life ahead.

Pamphlets and brochures were distributed among the attendees, providing additional information and resources for further learning. The event received positive feedback from the attendees, with many expressing their appreciation for the informative and engaging sessions. The program succeeded in creating awareness among the Students about the adverse effects of drug abuse and the importance of making healthy life choices.

REPORT ON SKILL DEVELOPMENT PROGRAMME

One of the most well-known, respected, and globally recognized humanitarian aid organizations is the Red Cross Society. its goals are to uphold human dignity and to safeguard life and health. It encourages friendship, cooperation, understanding, and long-lasting peace between all peoples. Youth Red Cross assists Students in developing self-discipline and understanding their obligations to their fellow citizens, particularly the underprivileged and oppressed. All YRC efforts are guided by three fundamental principles: Promotion of health and life. Service to the sick and the suffering. Promotion of national and international friendship to develop the mental and moral capacities of the youth.

Keeping in view the motto of the YRC, a skill development programme for young adult Students was arranged by Department of Biotechnology in cooperation with GRD - Youth Red Cross Unit on 12.12.2023. Sri.Karthik Rengarajan, Entrepreneur and Motivational Speaker, Coimbatore gave a thought provoking and activity based motivational session for Students on topic “Your Life Begins at the End of Your Comfort Zone”. Session was mainly focused on enhancing the personality,, because it helps in improving the confidence levels and creating a good and lasting impression on others. Personality plays a major role in ones behavior and all their interactions. Gaining awareness of what causes us to behave the way we do and how we come across to others is essential and holds the key to make suitable changes in our personality, which will enrich the Students view on taking up things. Overall, the session was very informative and Students enjoyed the session.

REPORT ON WORLD TB DAY

Each year World TB Day was commemorated on March 24. This annual event commemorates the date in 1882 when Dr. Robert Koch announced his discovery of *Mycobacterium tuberculosis*, the bacillus that causes tuberculosis (TB). Caused by the bacterium *Mycobacterium Tuberculosis*, Tuberculosis (TB) is a disease that has plagued the world since ancient times. The bacteria majorly target the lungs but can also affect other organs such as the kidney, brain and spine. TB is a communicable disease that may spread through the air. The disease is partially curable by vaccination; however, in case of severe infection or comorbidity, it may become fatal.

World Tuberculosis (TB) Day, 24 March 2024, continues with the theme “Yes! We can end TB”. TB is still one of the world’s deadliest diseases and recent years have seen a worrying increase in drug-resistant TB. World TB Day is an opportunity to renew commitment, inspire and take action to end TB.

World TB Day is a day to educate the public about the impact of TB around the world. in this year GRD-YRC Unit and School of Biotechnology took an initiative to create awareness among the Students by making a video interview with a renowned Pulmonologist and the video was played before the student volunteers. The video highlighted the causes, symptoms, precautions focusing on TB. Pulmonologist in her video detailed on efforts to find TB, ensuring the provision of preventative TB treatment for people at high risk, increasing access to quality-assured rapid diagnosis of TB and achieving full uptake of highly effective, safe and short treatment regimens for TB and drug-resistant TB. The latest treatment regimens are people-centred, making it easier for patients to continue with their lives while undergoing treatment, with no injections and minimal hospitalization.

REPORT ON WORLD DOWN SYNDROME DAY

World Down Syndrome Day, observed annually on March 21st, is a day of celebration, advocacy, and awareness. It's a day dedicated to recognizing the inherent dignity, worth, and rights of individuals with Down syndrome. In 2024, as we commemorate this special day, it's crucial to reflect on the progress made in promoting inclusivity and supporting individuals with Down syndrome while also acknowledging the challenges that still exist.

Down syndrome is a genetic condition caused by the presence of an extra copy of chromosome 21. It manifests in varying degrees of cognitive delays, physical characteristics, and health conditions. While individuals with Down syndrome may face certain challenges, they possess unique abilities, talents, and personalities that enrich our communities.

The theme for World Down Syndrome Day 2024 was "End the Stereotypes". This theme aimed to raise awareness about the challenges faced by people with Down syndrome due to misconceptions and prejudices.

in a motto of:

- ✓ Promoting inclusion
- ✓ Raising Awareness
- ✓ Advocating for Rights
- ✓ Celebrating Diversity
- ✓ Supporting Families
- ✓ Fostering Empowerment

In this year GRD-YRC Unit and School of Biotechnology took an initiative to create awareness among the Students by making a skit in order to educate them what else should be done and not to be done while taking care of the Down syndrome patients.

REPORT ON WORLD HEALTH DAY

Millions of people's rights to health are increasingly in jeopardy throughout the world. The leading causes of mortality and disability are illnesses and natural disasters. Conflicts ruin lives by bringing about starvation, agony, death, and mental anguish. The combustion of fossil fuels is the primary cause of the global catastrophe and the denial of our right to breathe clean air, as one person dies from indoor and outdoor air pollution every five seconds.

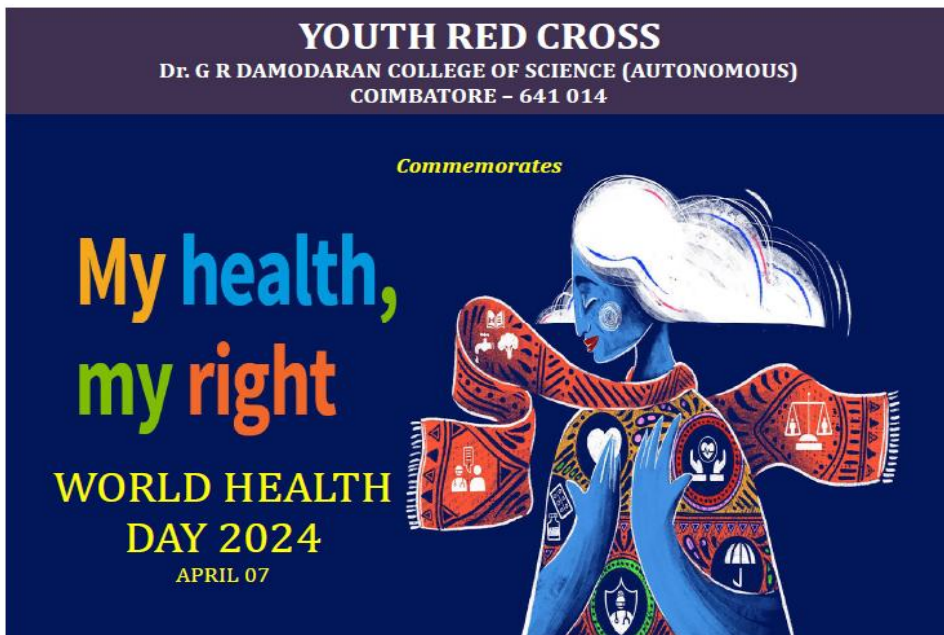

According to data from the WHO Council on the Economics of Health for All, the constitution of at least 140 nations declares health to be a fundamental human right. However, nations are not enacting and implementing legislation to guarantee their citizens' access to healthcare. This supports the estimate that in 2021, at least 4.5 billion people, or more than half of the global population, lacked complete access to basic healthcare services.

"My health, my right" is the topic for World Health Day in 2024, which aims to address these kinds of issues.

The focus for this year is to support everyone's right to high-quality health care, education, and information, as well as their right to clean, safe water to drink, healthy food, adequate housing, respectable working and environmental circumstances, and freedom from discrimination.

In this year GRD-YRC Unit create awareness among the Students by making a campaign about importance of health, significance of early diagnosis and they visited class wise and make the Students to give a pledge on making their health prior and insisted them not to pollute environment which ends up in health issues.
